“ She was most definitely one amazing woman. Shawna and bryen where the first people i got to know when i moved to sarasota 2019 after transferring from tampa with my job. They took me in and gave me a place to lay my head and roof to keep me dry. Over the next two years we have gotten closer and i had looked at shawna as a mother figure and at time a mentor as she always enjoyed talking and giving some advice and her thoughts of the situation at hand. I always felt comfortable and welcomed anywhere she was living or staying at if i needed to talk or just stay a night or whatever. She never would really so no if it was something she could do or make happen. She wax definitely all about her boys and family. She reminded me how family is supposed to be and how they take care of each other when needed after i had almost forgot after my father passed away in 2014. Words just can't really describe the woman shawna wit was for sure. She will never be forgot by me or any of the many people she had touched and knew. And i will hold my promise i made to her if anything was to ever happen to her as we had spoken many times about. Until we see each other again momma please continue to watch over your family and keep going on the right path please. Love you forever Momma.....
