

Susan Marie Hofmann

December 5, 1956 - November 6, 2024

In loving Memory of Susan Hofmann

Susan, age 67, passed away peacefully on November 6, 2024 with her two beloved daughters holding her hands. Though her battle with pancreatic cancer was fierce, her sparkle never faded.

If you knew "Zusan" you'd remember her as a true fashionista—a woman who believed that life should be lived with a touch of sparkle (or, honestly, with a lot of sparkle). Glitter, sequins, rhinestones—you name it, she had it, and she wore it with style. Her love of bling was matched only by her love for live music, which brought her endless joy and laughter. She could light up a room just by walking into it, often dazzling us all with her laugh, her stories, and of course, her unforgettable wardrobe.

A devoted mother and grandmother, her two daughters and grandchildren were the true jewels in her life. She loved each of them fiercely. Her legacy shines on in their hearts, where the echoes of her smile and laughter will live forever.

Though we will miss her terribly, we know that somewhere, she's still dancing, dressed in head-to-toe glitter, probably finding the best seat in the house for a concert. Shine on Mama, we'll see you again, and we'll be sure to bring the

bling.

Susan was preceded in death by her loving husband Paul Luhman. She is survived by her daughters Veronica (Matt) Sniscak and Marianne Zahl & her fiancée Brian Harden, her granddaughters Olivia, Charlotte and Georgia and her grandson Archer... And lastly, her "Ride or Die" Ann Marie and her daughter Michele.

A celebration of life will be planned in Maryland, details will be distributed when confirmed.
